### OMNILUX GETS RESULTS

Omnilux Super Package - \$600

1 Revive Me Facial

Followed by 11 Omnilux treatments

3 treatments per week for 1 month

#### What does Omnilux do?

Improves both skin tone and texture. Helping to reduce pigmentation changes or scarring from acne and other wounds.

#### How does it work?

The light technology works because cells within the body contain receptors that absorb light naturally. When these receptors absorb light it kick starts a cellular response.

#### Is it painful?

The therapy is safe, pain free and non-invasive.

#### How long does the treatment take?

A single treatment session takes thirty minutes.

#### How many sessions of Omnilux LED Light Therapy will I need?

This varies from person to person, but as a guide we suggest around 10 treatments, over a period of five weeks.

#### How soon will I see results?

Optimum results will be seen several weeks after your treatment.

#### How long will the results last?

After your initial course of Omnilux you may continue to have top up booster treatments every six weeks or so to maintain a revitalised and refreshed look.
