ELOS Skin Rejuvenation is a highly effective IPL intense pulse light treatment which restores the appearance of unwanted pigmentation, redness and uneven skin tone. We can treat your face, neck, décolletage and hands, restoring your skin to its former glory.

Combined bi-polar radio frequency and light energies of ELOS technology targets skin pigmentation such as freckles, sunspots and age spots. Spider vessels (or thread veins) and redness from rosacea are also lightened. The bi-polar heat also stimulates collagen production.

Prices normally start at \$350 for your face, BUT we are offering a special price of \$200 for full face, with pricing for other areas by consultation with one of our certified therapists.
