

Our Promise To You: *To deliver a luxurious spa experience.*

Another festive season and beautiful Nelson summer have come and gone! We hope you all enjoyed a break during this time. Our team enjoyed some much-deserved downtime over the holidays, returning in early January, recharged and ready to help you relax all over again!

It has been a wonderfully busy summer for us here at Woman. We've enjoyed lavishing our regular clients with extra pampering treats. We've also been delighted to welcome many newcomers to the Spa, who received vouchers for Christmas. As is usual at this time of year, group bookings for weddings have also kept us fully occupied. We have enjoyed helping all our clients relax and refill their self-care cups. We look forward to helping you with regular pampering treats during the cooler months to come.

As some of you will already know, our receptionist Stacey is going on maternity leave mid- March; we all think she is very brave going back for baby number four! Motherhood certainly suits her as she is glowing and makes juggling pregnancy, parenting three already, and full-time work look easy! All of us will miss her dearly, as she brings a great deal of humour and positivity to work every day. In the future, she will be staying casual for the occasional Saturday shift, helping out when needed and where she can. You may have already met Aimiee at reception or as a therapist with us, but if not, you will soon! As she is taking over the bulk of Stacey's hours from here on and will be responsible for welcoming you into the salon. We have no doubt she will do an excellent job as she has been already!

BROWS THAT WOW!

Making the most of your Woman Beauty brow treatments...

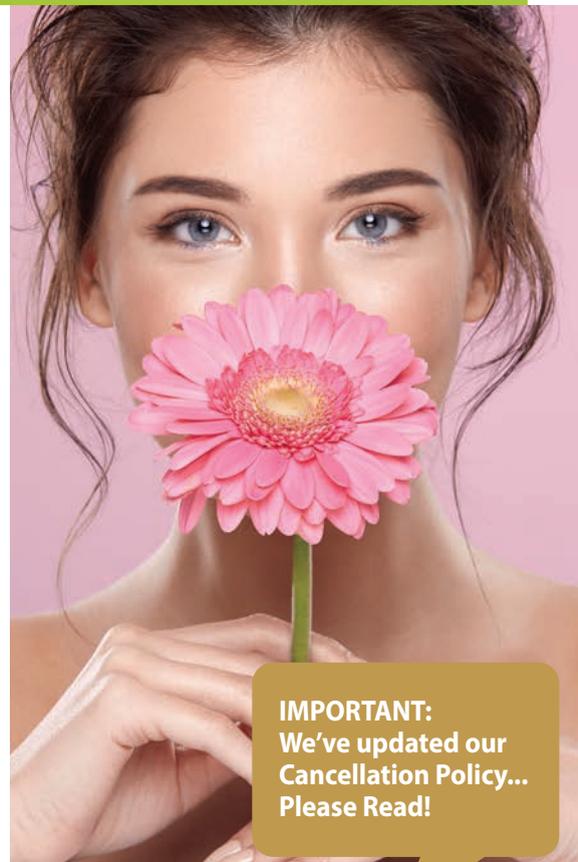

When your tint is first applied, we recommend that you don't wet or cleanse the area for twenty-four hours. We also suggest you continue to avoid exfoliation of the area to keep that fresh, filled in look.

As the tint inevitably starts to fade, we have a range of Jane Iredale products that can be used at home to maintain the fresh salon look we know you love.

First up, the Jane Iredale brow gel comes in three shades: brunette, blonde or clear. The brow gel is essentially a mascara product but for your brows. So it will give them a boost of colour while also taming any stray hairs into place.

Also useful are Jane Iredale's retractable brow pencils. These come in a range of brunettes and blondes to suit your hair and brow colours. They are great for filling in any sparse areas in the brow that may need some extra help. You'll find them easy to use as well because they have a crayon tip as opposed to a pencil tip, which can give a harsh line on the brow.

Finally, for an enhanced and customised effect use the Great Shape eyebrow kits. These kits include a brow powder to fill in your brow, a wax to set the hairs in place and an angled brow brush to apply the products. You can achieve a very natural look for day wear. For more glam makeup, you can define the brow by combining the wax and powder for a sharper look.
